

Bellsouth SHOULD NOT be allowed to do this. THis company made a commitmint and should be held to it. As I recalled one of the things BS was able to do because of it's agreement was to provide Long Distance service - so if they suceed in this petition will they be forced to stop providing long distance? I think not. Basically they got what they wanted out of the deal, now they want to renege without consequences. This is not right or just. PLease deny this petition as it does the PUBLIC NO GOOD!

Sincerely,

Aaron Ben-Avraham
